Pixi™

SMART FEEDER

Cute design series by Catit

The Catit PIXI™ range consists of high-end cat supplies with a sleek yet whimsical design, inspired by our adorable office cat Pixi. The special blend of catitude and skill results in unique, user-friendly products.

Cross-category range

Comparable to our popular Catit Senses series, this new product line will continue to grow in the future, with products from various categories that all share their cat-like styling. As with Catit Senses, these products are great as stand-alone items but also pair up beautifully thanks to their design.

Adorable styling

Our many conversations with cat groups have taught us that the 'cute' level in cat supplies is very important to cat parents. Catit PIXI™ products all share cat-like traits, such as a nose with whiskers, ears, and/or tail in some cases. These adorable elements appeal to any audience that is either young at heart or cares for their cat(s) as parents do for their children.

Because of its sleek design, Catit PIXI™ is reminiscent of a high-end fashion line that will tickle anyone's fancy.

PATENT PROTECTED.

Pixi™

SMART FEEDER

Catit PIXI™ helps you care for your cat anywhere, at any time

The Catit PIXI™ Smart Feeder provides your cat with timely, portioned meals, even when you're not at home. It appeals to your cat's natural instinct to eat various small meals throughout the day, with reduced risk of binge eating.

Large food reservoir

Airtight seal for food freshness

Easy to clean

Pixi™

SMART FEEDER

Remote-controlled cat food dispenser

With the Catit PIXI™ Smart Feeder, you can schedule your cat's feeding times or dispense food instantly at the press of a button! You don't have to worry about your cat going hungry ever again, with the app's real-time status overview, optional notifications and ability to share with friends and family.

Holds ± 1.2 kg of food, for ± 10 to 15 days*

(* Average results for 1 adult cat)

Pixi™

SMART FEEDER

Free mobile app

With the mobile app, it's easy to schedule regular feedings without fail or delay, and to monitor your cat's food intake by setting custom meal sizes.

Using the app, you can access any of these feeder features remotely:

- 

Dispense food
Instantly dispenses one portion of food in your cat's feeding dish.
- 

Schedule feedings
Schedule your cat's feeding times in a cycle of 7 days. Program up to 12 meals per day.
- 

Customize meal size
Adjust the default meal size (number of portions) that the feeder will dispense per feeding to your cat's specific needs.
- 

Real-time status overview
See when the next scheduled meal will be and whether or not the feeder contains enough food at present time.
- 

Enable audio (optional)
The feeder will play a sound to notify your cat that food has been served.
- 

App sharing
Have multiple people (e.g. family, cat sitter) control and monitor the feeder by logging in to their account on the app.

Pixi™

SMART FEEDER

Notifications

The Catit PIXI™ Smart Feeder automatically detects status changes, such as when food is running out. Simply enable notifications in the Catit PIXI™ app, and get notified about those events directly on your smartphone.

Food refill alerts

Get notified when the food level is below 10% of total capacity.

Obstruction alerts

Get notified in case the feeder is jammed.

Catit® PIXI™

Now

Food is running out

Leo's feeder: The food reservoir is almost empty. Please refill.

Pixi™

SMART FEEDER

Schedule and customize your cat's daily feedings

With the Catit PIXI™ Smart Feeder, you can plan out an entire week's worth of feedings, with up to 12 meals per day. Your cat's feeding plan will repeat itself for as long as you want it to, so you'll never forget a single feeding!

Feed instantly

Dispense food instantly by pressing the cat nose on the feeder, or using the mobile app. If your cat is a fast learner, this feature can be disabled in the app.

Compatible with all traditional food pellet sizes

Pixi™

SMART FEEDER

Portion control

Program the Catit PIXI™ Smart Feeder to dispense just the right amount of food for your cat, using the free Catit PIXI™ mobile app. One meal can consist of one or more portions.

Example

● = 1 Portion of dry food

5 meals,
different portions sizes

12 meals,
smaller portions for binge eaters

1 portion

3 portions

Pixi™

SMART FEEDER

Built to preserve food freshness

After dry cat food is extruded, it is sprayed with oils that can start to break down and go rancid once the food is exposed to air. The Catit PIXI™ Smart Feeder was designed to store your cat's food in the best of conditions for as long as possible.

Airtight seal keeps food crunchy

The feeder's reservoir has a rubber sealing ring in its lid to keep your cat's kibble fresh and crunchy for longer.

Mold prevention

The Catit PIXI™ Smart Feeder has a desiccant pad holder, positioned in the center of the lid. The desiccant pad absorbs moisture in the reservoir, helping to prevent mold from growing. Replace the desiccant pad every 30 days for optimal results.

Pixi™

SMART FEEDER

Whisker stress-free shallow dish

The feeding dish was designed to prevent stress on your cat's sensitive whiskers while eating, so they can enjoy their meal to the fullest.

High-grade stainless steel

The dish is removable and dishwasher-safe for easy and thorough cleaning. Use the holder as secondary dish when the other is being washed.

Pixi™

SMART FEEDER

Smart feeding technology for seamless food distribution

The impeller consists of 5 compartments, of which each is a single portion. Using the app, you can set how many portions your cat needs for each individual feeding.

Strong motor

The motor and gearbox reducer deliver a consistent low-speed, high-torque output to the impeller. Small food particles have no chance of hindering its rotation.

Snug impeller housing

The impeller is positioned just above its casing to prevent small particles from getting stuck.

Soft top divider

A flexible partition brushes stray pellets into the food compartments below, ensuring smooth passage.

Unblock reverse

In case of an obstruction, the impeller will automatically rotate backwards to clear it.

Pixi™

SMART FEEDER

Blackout? No problem!

Four C/LR14 batteries can be inserted to provide power to the Catit PIXI™ Smart Feeder in case of a network power failure or blackout. On average, 4 back-up batteries can provide approximately 58 hours of power to the feeder.

± 58* hrs

(*) Average result using
four C/LR14 batteries

Pixi™

SMART FEEDER

PIXI keeps an eye on things

The Catit PIXI™ Smart Feeder safely stores your cat's food where they can't reach it, and the smart sensor inside will tell you exactly when it's time for a refill. The reservoir's true maximum capacity depends on the pellet size and weight of the dry food used.

Time to refill

The LED light status indicator will flash red when it's time to refill the reservoir.

Pixi™

SMART FEEDER

Easy set-up

Check the instruction manual to get started with your Catit PIXI™ Smart Feeder!

Lid with airtight seal and desiccant pad

With its airtight lock and dehumidifying pad, the Catit PIXI™ Smart Feeder helps keep your cat's kibble fresh for longer.

Food reservoir

Safely store your cat's food where they can't reach it. The reservoir's maximum capacity depends on the size and weight of the kibble.

Base with feeding button

Press the nose button to instantly dispense one portion of food (this feature can be disabled in the mobile app). The base also features two status LED lights.

Stainless steel dish

The feeding dish is removable and dishwasher-safe for thorough cleaning.

Food dish holder

The holder can be used as secondary dish when the stainless steel dish is being washed.

Back-up battery compartment

Four C/LR14 batteries (not included) can be inserted to provide power to the feeder in case of a network power failure or blackout.

Pixi™

SMART FEEDER

Built-in Wi-fi

Connecting the Catit PIXI™ Smart Feeder to your home's Wi-Fi is child's play, no third party accessories needed.

Free mobile app

Unlike a lot of feeders on the market, the Catit PIXI™ Smart Feeder comes with a free app that does not require a paid subscription to use.
